Subject: Delta Nutrient Research item at December 6/7 Regional Board Meeting

This is a message from the California Regional Water Quality Control Board, Central Valley (5).

Dear Delta Stakeholders,

During its regularly scheduled meeting on 6/7 December, the Central Valley Regional Water Quality Control Board will consider adoption of a Resolution to accept grant funds for Delta research. The Notice for the public hearing and draft Resolution are available here:

https://www.waterboards.ca.gov/centralvalley/board_decisions/tentative_orders/#other

The project involves monitoring harmful cyanobacteria blooms and toxins in water, clams, and other organisms at ten locations across the Delta for a period of two years. Central Valley Water Board staff and project partners successfully applied for funds under the Watershed Restoration & Delta Water Quality and Ecosystem Restoration Grant Program for Fiscal Year (FY) 2018-19.

The final agenda for the full Central Valley Water Board meeting will be posted here:

https://www.waterboards.ca.gov/centralvalley/board_info/meetings/

If you have questions, please contact Janis Cooke (916 464 4672 and janis.cooke@waterboards.ca.gov)
